

IT'S A PARKS AND RECREATION KIND OF YEAR!

PICTURE YOUR PARK!

It's Moment Time with Opportunities to Engage in January!

The Chicago Park District is moving to update it's 2012 Strategic Plan and they need our help. This is your opportunity to leverage and redirect more programs, recreational space and facility improvements to neighborhood parks.

So, what do you think?

- What **improvements** are most needed at the **Ogden Park** fieldhouse and grounds?
- How do we best **support the Heritage Station** at 63rd and Wallace?
- Should we expand our **Cultural Park System beyond Hamilton Park**? What about dog and/or petting zoo park spaces?
- What Park District **amenities are needed** along the scheduled Englewood Nature Trail along West 58th Street?
- Does Greater Englewood need an **indoor swimming pool**?
- What about **drinking water** in the Park: Can CPD **replace lead pipes** at all Greater Englewood area parks?
- Can we create new outdoor **recreational and comfort zone experiences**?
- Do we need **more water spray pools, sculpture fountains or other features**?
- Should we **increase tree canopy and layered plantings** at park entry points?

Your ideas can serve as the blueprint for building a whole new community!
